

# RENT STRIKE

BEGINNING  
MONTREAL APRIL 1, 2020

Poor, unemployed, laid-off, precarious, undocumented, contract and other workers—all of us who live month-to-month—will not be able to pay rent this April 1st. Many of us were struggling to pay rent before this crisis hit, and are likely already behind. In a perspective of direct action and social solidarity, ALL tenants can refuse to pay rent on April 1st.

**Stop paying rent.**

**Block evictions and renovictions.**

**Open up vacant housing to house homeless people or those who lack safe housing.**

The Régie du logement has suspended eviction hearings. For the immediate future, your landlord cannot take you to the Régie to evict you for not paying rent.

If you nevertheless experience harassment or intimidation from your landlord, talk with your neighbors about a collective response.

FOR A WORLD WITHOUT BOSSES, LANDLORDS  
OR COPS — THE WORST EPIDEMICS
